

After a 30 year career in multi-national corporate engineering Groups, I realized that I was a “closet” entrepreneur and over the past 15 years have invested in various SME manufacturing businesses. I have invested in the UK Aerospace supply chain and am currently Chairman and the majority shareholder of AVPE Ltd, a Tier1 supplier of metallic components into Airbus in the UK and Europe. My commitment to supporting SME members of the UK supply chain is demonstrated in the various regional and national Trade Association roles I hold:

- Chair of the West of England LEP Advanced Engineering and Aerospace sector Group
- Director of WEAFA
- Member of the iAero Governance Board
- Member of ADS SC21 and SME Members Boards
