

MAA Conference 2018

Rolls Royce Learning and Development Centre, Derby
8 March, 08:00 - 16:00

*Stay up to date with the **latest trends in aerospace**, make sure you and your company are **doing the right things**.*

At the MAA Conference you will find out:

- how big aerospace companies like **Airbus** and **Rolls-Royce** are **managing** their **growth** and what this means for smaller manufacturers and the supply chain;
- what the world's aerospace industry leaders are **privately thinking** and what their plans mean for your company;
- how UK manufacturing is coping with current **economic uncertainties**, where aerospace fits in, and what you should do next;
- the best ways aerospace suppliers can plan for **Brexit**;
- how **future technological change** will affect today's aerospace manufacturers - what does "more-electric aircraft propulsion" mean for the gas turbine industry? - what does "additive manufacturing" mean for machinists, fabricators and special process firms?

Our **keynote speakers** to guide you through these vital matters include:

- *Simon Kirby*, Chief Operating Officer, *Rolls-Royce*
- *Andy Moran*, Head of Supplier Development UK, *Airbus*
- *Robin Hill*, Head of Electronics, *Rolls-Royce*
- *Lee Hopley*, Chief Economist, *EEF*
- *Jeegar Kakkad*, Chief Economist and Director of Policy, *ADS*
- *Robert Thomson*, Managing Partner, United Kingdom, *Roland Berger*
- *David Wimpenny*, Chief Technologist for Component Manufacturing, *The Manufacturing Technology Centre*.

Come and **network** with your peers in the Midlands aerospace industry.

The Midlands Aerospace Alliance wants to give more help to your company! Come and find out what we can do for you.
