

## **Nichola Robinson**

### **Procurement Director in Bombardier Aerospace and Engineering Solutions**

Nichola Robinson, Procurement Director in Bombardier Aerospace and Engineering Solutions Belfast, is responsible for the Procurement organisation supporting both Belfast and Morocco operations.

Her role involves the development and implementation of the Procurement strategy for all purchased goods for the organisation, executing procurement policy and driving efficient procurement and contracting processes.

She leads a team of cross functional professionals who execute on strategic initiatives, including managing the introduction of new programmes, work transfer and developing suppliers worldwide.

Her team consists of procurement, supply chain and engineering professionals who develop and implement innovative concepts driving improvement in efficiencies and cost within the supply base.

She represents Bombardier on the Aerospace Defense Systems Supply Chain Working Group, and also supports the Supply Chain 21 national programme for changing business culture.

An advocate for equality and diversity, she holds the position of Chair of Women in Business (NI), and Diversity Charter Mark (NI) she is also a graduate in Management Operations from University of Ulster, holds a professional coaching qualification, and is a member of the Chartered Institute of Purchasing and Supply.
