

ATI Boeing Accelerator

Programme Summary

The ATI Boeing Accelerator is a 3 month virtual/ in-person programme for world-class startups building sustainability solutions applicable to the UK aerospace industry. The accelerator offers a £100k equity investment, firsthand access to Boeing, GKN Aerospace and ATI strategists/ technical experts and much more. More info/ apply here: atiboeingaccelerator.com

Who are we?

The ATI Boeing Accelerator is brought to you by the [Aerospace Technology Institute](#), sponsored by [Boeing](#) and [GKN Aerospace](#) (with more partners TBA), and is delivered in partnership with [Ignite](#).

What are we looking for?

We're looking for world-class startups who are creating sustainability-enabling technologies with the potential to bolster the growth and competitiveness of the UK aerospace industry.

We're especially interested in solutions across our three key areas: Industry 4.0, Lifecycle and Resilience, and Energy (for more detail, please refer to [the FAQ](#)).

Industry 4.0	Lifecycle and Resilience	Energy
Reduce Time to Market	Sustainable Lifecycle	Battery and Fuel Systems
Materials and Manufacturing	Operational Resilience	Energy Management

What do we offer?

- £100k optional investment (structured as an uncapped SAFE note) from Boeing HorizonX Ventures
- Mentoring from a global network of experienced entrepreneurs, mentors and investors
- Access and introductions to our network of Angels, VCs and the wider aerospace industry throughout the programme and during our ecosystem events.

How do you apply?

You can apply [via the programme website](#). Applications open 31st of August and will close at midnight, 27th of September 2020. The programme is expected to run January - March 2021.

If you have any questions, please visit [our FAQ page](#) or [book in for a call](#) with the Programme team.
