

## Government Supplier Locator Procurement Gateway - Suppliers Required for March 2024

**Wired-Gov** would like to inform you that registration to **The Supplier Locator Procurement Gateway** is now open and we are currently recruiting a variety of Suppliers for an **EXTENDED 24-Month Registration Period of March 2024 – March 2026**.

This Invitation is open to both SMEs and Suppliers that are able to deal with enquiries relating to fast tracked, lower value Government & Public Sector contracts. Larger Value Contracts are also available through the platform.

**Please see a summary of Service outlined below and if you'd like to find out more and receive full registration details, including Registration Fee, Time Frames and to register your interest, please contact: Edward Hamill – [edward.hamill@wired-gov.org](mailto:edward.hamill@wired-gov.org) Call (0)161 938 8226.**

### **The Supplier Locator Service and SME Agenda**

UK Government and Public Sector spend with SMEs is continually on the increase, spending in excess of £220Billion on goods and services every single year. It has been the stated intent of The Cabinet Office that £1 of every £3 of Government spend should go to SMEs. The Governments SME Agenda and Action Plan has seen Government make a priority of getting money through its supply chain into the hands of SMEs, by both setting targets and introducing new procurement mechanisms. Against this backdrop, the Wired-Gov **Supplier Locator Service** has been developed specifically to embrace the SME Agenda and provide a platform for SMEs and Suppliers to communicate directly with buyers and decision makers across the entire Government & Public Sector community.

The Supplier Locator Service provides a trusted platform for Government and Public Sector buyers to request quotes and enquire directly with Suppliers for lower value, less complex products and services where the contract is not required to go through a tendering procedure. The platform also enables its Suppliers to communicate direct to Government desktops and to promote their capability to supply certain goods and services through its industry news and outbound communication channels.

**As a Registered Supplier with Wired-Gov, you will have access to a variety of services to assist in all aspects of increasing and sustaining your Government and Public Sector client base and sales pipelines, including those outlined below:**

- **Supplier Locator** – Supplier Profile is embedded within the platform of the dedicated Public Sector Procurement Gateway, accessed by our Government and Public Sector buyer community.
- **Contract Locator** – Supplier has access to a Personalised dashboard to manage daily email alert notifications for current and relevant Government and Public Sector Contracts, Opportunities, Framework Invitations and Early Engagement notices.
- **Promotional Activity** – Wired-Gov Publish and circulate relevant Case Studies, White Papers, Success Stories, Product and Service reviews etc.... on behalf of its Suppliers to our Government and Public Sector Communities. Supplier promotional messages are also regularly embedded within The Official Government News Alerts to our entire Government and Public Sector Community.
- **Bidding Support** - Suppliers have access to Advice, Guidance and Support with all aspects of Public Sector Bidding.

- **Official Government Alert Service Subscription** – Suppliers receive immediate notification of Government News and Announcements that directly impact on their business and overall economy including SME targets, Government business grants and loans etc...

### A little more about Wired-Gov

Since April 2000, Wired-Gov have been working with the Cabinet Office to deliver official Government news, information and announcements, directly to the desktops of The Government Secure Intranet/Public Services Network (PSN) community and wider Public Sector via an immediate and personalised email alert service. 23 years on, we now officially distribute on behalf of over 150 stakeholder government departments, agencies, and leading Industry Trade bodies. Please find a summary below of just some of the departments and agencies we currently distribute for.
